

Nuova scheda elettronica Firex,
alta tecnologia in cucina.

New Firex electronic control panel,
cutting-edge technology in the kitchen.

Un touch controller di ultima
generazione pratico e intuitivo
con cui impostare e regolare ogni
funzione dei sistemi cucina su cui
è installato.

Il display di 7" permette di
accedere con un semplice tocco
a tutti i programmi di cottura,
mescolamento e carico dell'acqua,
con la possibilità di agire con
precisione assoluta su tempi,
temperature e diagnostica dei
processi.

Semplicità ed efficienza
garantite.

A practical and intuitive
cutting-edge touch-control system
for setting and adjusting the
operation of each piece of cooking
equipment installed.

A large 7" display allows you to
program at the touch of a button
entire recipes with different stages
of cooking and mixing, with the
possibility of accurately setting the
time, temperature and process
diagnostics.

**Simplicity and efficiency
guaranteed.**

SEMPLICITÀ ELETTRONICA

Caratteristiche della scheda Firex ETC Easy Touch Control:

- Touch screen da 7".
- Creazione e modifica di programmi di cottura, ciascuno di essi multistage.
- Cottura in modalità "Manuale".
- Impostazione multilingua dei messaggi.
- Facile da comprendere e da utilizzare.
- Garantisce di impostare tempi di cottura e temperature estremamente precise con valori da 20°C fino a 220°C.
- Controlla fino a 3 diverse sonde di temperatura: nel fondo e in vasca a contatto con il prodotto per le cotture più delicate o speciali;

ELECTRONIC SIMPLICITY

Firex ETC Easy Touch Control control panel features:

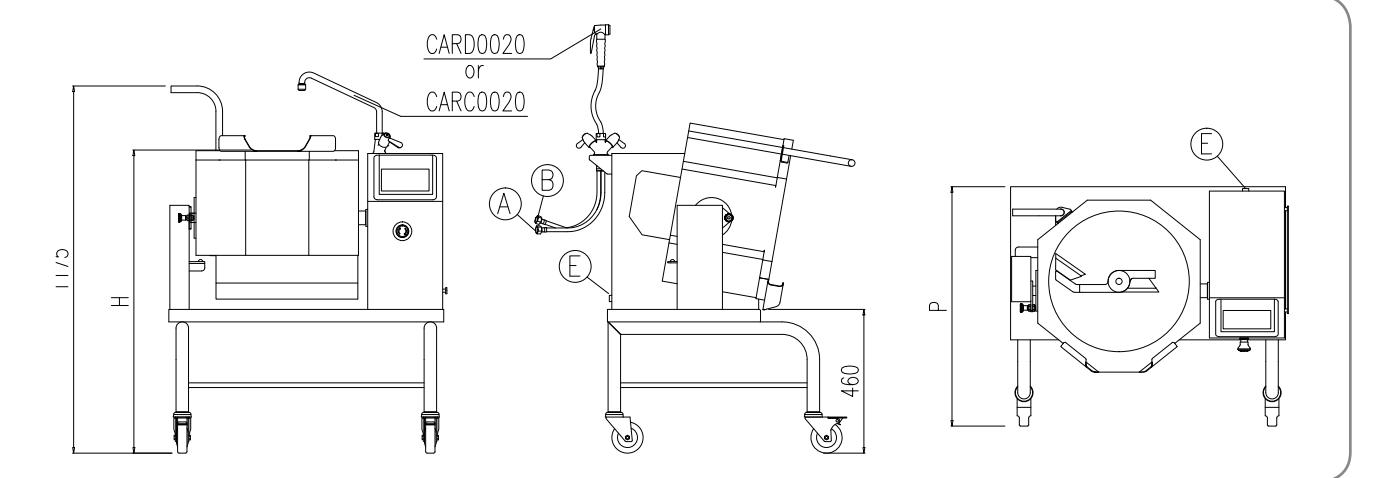

- 7" touchscreen.
- Creation and editing of cooking programs, each of which is multi-phase.
- Cooking in "Manual" mode.
- Multilingual message setting.
- Easy to understand and use.
- Guaranteed setting of cooking times and extremely accurate temperatures from 20°C to 220°C.
- Controls at the most 3 different temperature probes: in the bottom, in the cooking vessel in direct contact with the food product for more accurate or specialist cooking, even in the wall in case of optional of "wall-heating".
- Allows you to select the number

NUOVE VERSIONI DISPONIBILI NEW VERSIONS AVAILABLE

CARATTERISTICHE COSTRUTTIVE

- Vasca di cottura in AISI 304 (fondo spessore 12 mm e parete spessore 3 mm). Recipiente con ribaltamento motorizzato su asse anteriore.
- Coperchio e rivestimenti esterni in AISI 304 finemente satinato.
- Piedini in acciaio inox AISI 304 regolabili per il livellamento.
- Regolazione della temperatura da 20 a 200°C tramite sonda posizionata al di sotto della superficie di cottura a garanzia di una precisa rilevazione e di una elevata reazione del sistema riscaldante.

CONSTRUCTIVE FEATURES

- Cooking vessel in stainless steel AISI 304 (bottom thickness 12 mm and wall thickness 3 mm). Vessel with electric tilting on front part.
- Lid and outer cover in stainless steel AISI 304, fine satin finish.
- Adjustable feet in stainless steel AISI304 to ensure levelling.
- Temperature (adjustable from 20° to 200°C) is measured by a sensor in direct contact with the bottom, just under the cooking surface, to ensure a precise temperature survey and a quick reaction of the heating system.

MIXER

- Automatic mixing device with two or three arms and teflon and harmonic steel scrapers, entirely removable to make cleaning easier. Rotation in both directions, with speed regulation and time adjustment (including pause time) directly from the control panel to suit mixer rotation to the product to be processed.

GAS VERSIONS (70 LITRES)

- Heating by means of high efficiency stainless steel tube burners. Automatic ignition and flame control system without pilot burner. Heating controlled by electronic board with automatic activation of minimum 2 °C before the SETPOINT.

ELECTRIC VERSIONS

- Heating by means of armoured elements in INCOLOY-800 alloy controlled by electronic board.

CONFECTIONERY VERSION

- It's a version that includes: heating walls (controlled by the electronic board and on separate bands), additional scraper lateral and peek material. This model is particularly appreciated in all the processes based on sugar, which with the heating of the walls does not crystallize, with the side scraper does not burn.

PRINCIPALI ACCESSORI E OPTIONAL

- Ruote
- Colino
- Valvola di scarico in acciaio inox
- Raschiatore supplementare laterale
- Griglia mescolatore
- Rubinetto miscelatore carico acqua in vasca
- Carrelli
- Doccetta

MAIN OPTIONAL AND ACCESSORIES

- Wheels
- Strainer
- Washout stainless steel valve
- Extra scraper for the wall
- Mixing grid
- Water mix faucet
- Trolleys
- Shower
